

LOTUS MOONCHILD

It is often rare that one finds themselves enchanted by the music that blissfully flows through the room, unknowingly encapsulated by the ethereal Hoodlum, the feet move and the body grooves. That is what Lotus Moonchild does best, believing very much in the powerful influence music has on the soul she aims to enchant her audience and take them on a musical voyage.

Having started from a bedroom setup in her home town of Adelaide in 2009 she has quickly become one of Melbourne's up and coming DJ's. With supports such as TOKIMONSTA, Ekali, The Pharcyde, DJ Yoda and DJ Jazzy Jeff she is one to keep an eye on.
